Wiring diagram

Functional principle

The TL50 tower lights provide highly visible status indicators and a clear user guidance within the entire system. They can be assembled from varicolored LEDs and are available with or without beeper. You can mount them directly on machines, in the cabinet or in locations to be monitored within the production lines. The wiring diagram shows a PNP pin assignment. There are 10 colors available blue (B), green (G), red (R), yellow (Y), white (W), turquoise
