

Level controller 1-channel MK91-12-R/230VAC

The 1-channel level controller MK91-12-R/230VAC monitors and regulates conductive liquid levels.

As a dual level regulator, it can be used to control pumps or solenoid valves, as monitoring device it is designed for run-dry or over flow protection.

The level controller not only provides optimum reliability in differentiating liquids, it is also suited for the distinction between foam and liquid. The responsivity (liquid resistance) is adjustable between 0.2 ... 100 kΩ. First, select one of the four sensitivities with the "Range" switch. Then you can finetune the switchpoint via the potentiometer at the front.

The separately adjustable switch-on and switch-off delay is very important for turbulent liquid levels. You can set a delay time between 0 ... 20 s via the potentiometers at the front.

Two relay outputs each with one changeover contact are available to output the switching commands. You can toggle between closed current (R) and working current (A) with the "Range" switch.

The switching status of the output is indicated by a yellow LED and operational readiness by a green LED.

For further information, please order out installation guidelines.

- Responsivity: 0.2...100 kΩ
- Hysteresis: 10%
- Output: 2 relays with 1 changeover contact
- Electronic switching of electrodes
- Switch-on/off delay 0...20 s, separately adjustable
- Reliable distinction between foam and liquid
- Galvanic isolation of input circuits, output circuits and power supply

Dimensions

Type	MK91-12-R/230VAC
ID	7545070
Nominal voltage	230 VAC
Operating voltage	184...264 VAC
Frequency	48...62 Hz
Power consumption	≤ 3 VA
Input circuits	2 electrodes or alternatively 3 electrodes
Schaltpunkt	0,2-100 kΩ
Probe voltage	0,02...5 Vpp/150 Hz (triangle)
Schaltsschwelle	0,2...1 kΩ
Schaltsschwelle	0,8...4 kΩ
Schaltsschwelle	2,5...15 kΩ
Schaltsschwelle	10...100 kΩ
Einschaltverzögerung	0...20 s
Ausschaltverzögerung	0...20 s
Hysteresis	10 %
Output circuits	
Output circuits (digital)	2 x relays (change-over)
Output switching voltage relay	≤ 30 VDC / ≤ 250 VAC
Switching current per output	≤ 3 A
Switching capacity per output	≤ 500 VA/60 W
Switching frequency	≤ 5 Hz
Galvanic isolation	
Test voltage	2.5 kV RMS
Displays/Operating elements	
Operational readiness	Green
Switching state	Yellow
Mechanical data	
Protection class	IP20
Ambient temperature	-25...+60 °C
Storage temperature	-40...+80 °C
Dimensions	89 x 36 x 110 mm
Weight	262 g
Mounting instructions	DIN rail (NS35) or panel
Housing material	Polycarbonate/ABS
Electrical connection	4 x 4-pin flat terminals with self-lifting pressure plates
Terminal cross-section	1 x 2.5 mm ² /2 x 1.5 mm ²
