

Accessories

Coaxial Tube

For LS-5 Series

LSCT-34-0600

- Coaxial tube LS-5 level sensors
- Process connection NPT 3/4"
- Tube length 600 mm

Type	LSCT-34-0600
ID	100001881
Remark to product	Attention: Coaxial tubes (accessories) are only available for LS-51 level sensors with process connection G3/4".
Application area	liquids
Probe length (L)	600 mm
Mechanical data	
Material	Stainless steel, 1.4571
Process connection	3/4" NPT
Included in delivery	Centering set for LSCT-...

Functional principle

The level sensors of the LS-5 series work according to the principle of the guided microwave. The so-called Time Domain Reflectometry (TDR) is used. This method emits an electromagnetic wave along the probe. When the wave reaches the medium, it is partially reflected due to the dielectric constant compared to air. The electromagnetic wave is picked up again by the sensor and the distance to the liquid can now be determined via the transit time.
